Wyart Building, 16th and F Streets, Washington, Feb. 21.-Republican leaders of the Senate put the direct proposition to Senators Foraker, Gorman and Teller to-day that Oklahoma and Indian Territory be admitted as one State and both Arizona and New Mexico left out. Contrary to expectations, it was turned

That would seem to kill statehood legislation of any description by this Congress. A majority of both Senate and House would favor this compromise could a vote be taken. But the press of business is such in the Senate that nothing can be done except by agreement. As Senator Teller demands the bill as passed by the Senate or none and will fillbuster against anything else, it complicates the situation. Ultimatums being served with no effect by both sides, statehood was not touched upon in the Senate to-day. The deadlock is accepted by all factions, and there the matter rests.

upon in the Senate to-day. The deadlock is accepted by all factions, and there the matter rests.

Senator Beveridge of Indiana buzzed around the floor trying to stir up some action. But the Senate was determined to be grimly humorous toward the junior Indianaian. He rose to an innocent motion, asking to file the credentials of Mr. Hemenway, elected as his colleague to succeed Fairbanks.

But Senator Bailey gravely suggested that, were this done, the Senate might have to deal with three Senators from Indiana. The Senate agreed with him, and Beveridge, sat upon, sat down. Beveridge killed statehood by a filibuster two years ago, and it is not considered that he can protest with good gract.

There may yet be some retreat by Senators Gorman, Teller and Foraker, but it is far from likely. The bill seems to be as dead as railroad rate legislation, which means very dead, indeed.

New York, Feb. 21.—Considerable irregularity marked the course of trading on the curb to-day. The market presented features of decided strength and features of marked weakness. The undertone of the general list was strong. Northern Securities, under well-sustained activity, advanced from 161% to 182%, and then sold off to 181%. Scaboard Air Line issues were quiet, but ruled strong. The common advanced from 17% to 181%; the preferred was maintained at 18%. Standard Oil, under fairly active dealings, continued its downward course, breaking it points further, from 610 to 1896. The stock flored at 600. Prices Sell Off Under Realizing in

Last Half Hour, but Final

Tone Is Steady.

REPUBLIC SPECIAL New York, Feb. 21.-Taken all together, the tendency among smaller traders in cotton to-day was to await developments, and at the opening of the market there was no distinct tendency. Liverpool made rather a poorer showing

than expected, leaving the March option out of the question, such as was subject to special influences, and at the hour of the local opening was 5 to 7 points lower on months due to come about 6 or 7 points lower. The local market opened about right on

general ruling was steady immediately rollowing the call, and later months showed a slight advancing tendency, which may have been accounted for by the covering of shorts for over the holiday to-morrow. March responded slowly to the advancing tendency of other months, and the premium on that cotton was reduced to a matter of 1 point over May, while July sold 2 points over the spring month.

duced to a matter of 1 point over May, while July sold 2 points over the spring month.

From the call the market showed an advancing tendency, with March gradually revovering a part of its lost premium, and the general list working up to a net gain of about 3 to 7 points.

There was little cotton for sale in the afternoon, owing to a let-up in receipts, contrary to the large promises of yesterday, which revived the impression that the South would hold its cotton. Mr. Price issued a circular without effect on the market to the effect that he had not turned a buil, and predicting very low prices for the spring and summer.

In the last half hour prices sold off a few points under realizing, but the final tone of the market was steady with prices 2 to 5 points higher; sales 20,000 bales.

The local market for spot cotton was officially reported as quiet, with prices ten points higher on the basis of &c for Middling Culf, Sales were 3 bales.

SHORTS ARE INCLINED TO COVER.

SHORTS ARE INCLINED TO COVER. REPUBLIC SPECIAL New Orleans, Feb. 21.-In its summary of the cotton situation, the Times-Democrat will say to-morrow:

"Yesterday's cotton market developed a

"Yesterday's cotton market developed a further inclination on the part of the shoris to cover, but on the whole, the position of the market has undergone little if any change. To-day's holiday and the bad weather of the belt made the bears more or less nervous from the start, and option prices soared away for a temporary gain, while the actual stuff was hardly able to hold its own.

"Quite naturally, the movement has percepthly increased, and better weather will surely bring out more cotton. But the spot plus parity holds up well enough and just so long as holders in the country continue to demand a premium the strength of the spot market will be maintained and hedged commitments will continue to give the middleman trouble.

"In the country there are two contending elements on the price question. The farmer and the merchant who have sold their cotton believe 6-cent cotton now would certainly mean, through acreage reduction, 10-cent cotton next fall. But the fellow who is holding cotton can't begin to see the thing that way. Factors generally are now being called upon for new crop advances, and where old balance remains unpaid are flatly refusing new loans. Thus complications, not unmixed with evil, are arising, and these restrictions cannot fail to shake out some here-tofore tightly held cotton. On the other hand, many farmers, firmly determined to see the thing through without disposing of their cotton at the current basis of values, will plant a poor man's crop, which, as a last resort, may be made to yield a profit even at a low price.

"Spinners bought May contracts in the New Crebans market vestering which is

even at a low price.

"Spinners bought May contracts in the New Orleans market yesterday, which is a pretty good indication that the channels of consumption are not now quite so confident the bears will make good in the final thrashing-out process.

LIVE-STOCK MARKET. Native Supply Moderate-Beef Cattle Steady—Sheep Close Easy.

NATIVE CATTLE—Beef Steers—There was a slightly freer movement to the market in general than prevailed yesterday, although it was confined mainly to the good qualitied yearlings and heavy steers of decent to good fiest. On the other hand, though plain, half-fat steers still manifested considerable slowness, there was comparatively little change in values; on some of the desirable kinds some of the sales were a shade stronger.

The supply of native cattle being of moderate proportions, was of considerable benefit, and through this influence values were well maintained. The top was \$5.50 for two loads of good to choice 1.48-th steers, while other good lots sold around \$1.595. Most of the offerings were on the medium order at \$4.159, 4.50.

SOUTHERN CATILE—Quarantine supplies were moderate and buyers were mote easier for the offerings than yesterday While there was no advance developed, a good healthy tone prevailed. Nothing as choice as the 34.50 cattle which sold lake yesterday was available, though some right good kinds sold at 34.50, with the bulk of cales from \$1.500.1 in \$1.500. with the bulk of cales from \$1.500.1 in \$1.500. with the bulk of cales from \$1.500.1 in \$1.500. with the bulk of cales from \$1.500.1 in \$1.500. with the bulk of cales from \$1.500.1 in \$1.500. with the bulk of cales from \$1.500.1 in \$1.500. with the bulk of cales from \$1.500.1 in \$1.500. with the bulk of cales from \$1.500.1 in \$1.500. with the bulk of cales from \$1.500.1 in \$1.500. with the bulk of cales from \$1.500.1 in \$1.500. with the bulk of cales from \$1.500.1 in \$1.500. with the bulk of cales from \$1.500.1 in \$1.500. with the bulk of cales from \$1.500.1 in \$1.500. with the bulk of cales from \$1.500.1 in \$1.500. with the bulk of cales from \$1.500.1 in \$1.500. with the bulk of cales from \$1.500.1 in \$1.500. with the bulk of cales from \$1.500.1 in \$1.500. with the bulk of cales from \$1.500.1 in \$1.500. with the \$1.500. with \$

There are intelligent traders who believe hear manipulation had a lot to do with the recent advance, Certain it is, if manipulation was reaponsible, the hears, and not the bulls, were the potential factors. In the last analysis, however, the farmer has played the big cards thus far, and if he be really wise, as the world now believes him to be, he will work out his own destiny, just as he started out to do long before pools, combinations and associations assumed the mantle of monarch. Wholesome advice he needs and should heed, but the resistance he is offering to the low-price proctor springs from a bigger tribunal than the New Orleans convention.

The edict emanated from a drumhead jury of the farmers themselves, and such a motive as prempted them then can hardly be trampled under foot now by the very mane men who for nearly three months inve had the temerity to defy the specutiors and the cotton consumers of the acrid.

"Seed-planning time has also come. New or the search and the cotton consumers of the acrid.
